Quote #7834

Hello... thanks for contacting us. This one is a little hard. We supply this material in reels... i understood you want just a sheet? We could help by slitting a reel to 210mm (on the quote below) 210xmm x 25m, but its a little tough for us to cut a sheet of that size. I know in the past celgard provide some A4 sheets if you contact them directly.
