## Quote #11558

Hello, thanks for your query. Please note the following:

1. Please note while these are solid, they don't have a safety pressure release valve, so they are not meant for very high pressures (ok up to 3MPa). There is another version with safety valves if you prefer.
2. At this quantity we can provide an extra 10% beyond the price quoted below
3. Dimensions can be found at the following link:
