Hello Robert,

Just to clarify, you've chosen 20 electrode packs, each pack contains 5 sheets. If you're looking at large quantities, we also work with battery production companies where we can often take pre-coated rolls if that's of any help. Otherwise these electrodes, are not the highest performing but fairly reproducible each time. Hope this helps and don't hesitate to ask if you have any questions.

Product	Unit Price	Quantity	Subtotal
 Lithium Nickel Cobalt Manganese Oxide 532 (NCM532) on Aluminum foil SKU: NMC-DS-01 Coating: Double sided	\$250.23	20	\$5,004.65
 Graphite anode coated on copper SKU: CCu-DS-01 Coating: Double sided	\$166.82	20	\$3,336.43
Subtotal:			\$8,341.08
Shipping:			\$50.00 via Flat rate
Total:			\$8,391.08
