Hello. This is a very robust Japanese machine and unlikely to break easily. However, with the risk of stepping on our own sales, unless our price is better than others, or you are familiar with this type of equipment, it may be better for you to buy locally as we don't have support staff in the US. More than happy to advise remotely though.

Product	Unit Price	Quantity	Subtotal
 Planetary Centrifugal Mixer SK-300SII SKU: SK-300SII	\$9,950.00	1	\$9,950.00
Subtotal:			\$9,950.00
Shipping:			\$140.00 via Shipping
Total:			\$10,090.00
