Quote #7577

Hello Maximilian,

In order to answer your questions:

1/yes they are suitable for argon but you need to specify this in advance. Normal model is not, but there is a argon specific version

2/Standard dies are available for grooving machine (e.g. 18650, 21700, etc).

Custom dies can be made but we would need a few cans to test once the tool is made. limited to 46mm currently

If you have any more questions, please don't hesitate to ask.

Product	Unit Price	Quantity	Subtotal
 Desktop Semi-Automatic Grooving Machine for Cylindrical Cells SKU: CES-GM-02	€4,025.35	1	€4,025.35
 Pneumatic Crimping Machine for Cylindrical Cells SKU: CES-CC50P	€3,967.85	1	€3,967.85
Subtotal:			€7,993.20
