## Quote #11807

Thanks for getting in touch. In response to your questions:

1. Lead time: about 6 weeks (japanese machines are a little slow)
  2. no problem with support during troubleshooting.
  3. we usually dont keep spare parts in stock but are able to source them. However, its a very reliable machine so you are unlikely to need them
- On the other hand, if helpful there are also some cheaper chinese machines available which are much more flexible, quick in their spare parts availability.
